We traveled city to city for trade shows this past month to showcase our industry leading products from Marathon Roofing Products & MRP Supports. These trips included Chicago, New York, Boston, Colorado & Las Vegas. Highlighted is the International Roofing Expo that was held at the Las Vegas Convention Center where we displayed our NEW 20x20' Island Booth! This display features a central tower rotating sign that sits 14 feet above the show floor, monitors on each side to display company videos as well as product designs on each panel. An amazing display we will use for years to come!
