

# SIDE OUTLET ROOF DRAINS

**HORIZONTAL DISCHARGE COPPER DRAINS TO ROUTE WATER LATERALLY IN SHALLOW ACCESS AREAS**

**FEATURES:**

- Versatile, economical, designed to accommodate drainage in spaces where normal vertical drainage is impeded by structural limitations.
- Available in 2", 3" and 4" sizes of copper 90° outlet.
- Marathon's horizontal discharge drains adapt to all new and re-roofing systems.
- Typical accessories available include:
  - Polypropylene or metal clamping ring
  - PVC & TPO coatings for heat weld or adhesive connect systems
  - Strainers: cast iron or aluminum
  - Flat grate inserts for promenade applications
