

FAST-PAK PVC

MODEL ULRD – PVC DRAIN

The NEW Fast Pak PVC drain allows for quick and easy installation from the deck, eliminating the need for underside installation via the underdeck clamp. It is adaptable to most generic materials of single ply and conventional built-up roofing for use with roof decks of steel, wood, precast concrete or gypsum. This drain offers versatility and easy installation on new and existing roofs. Available in sizes 2", 3" and 4".

FLANGE DETAILS:
 18" X 18"
 1/8" thick galvanized
 12 lbs.

FEATURES:

- Molded polyethylene dome strainer. Bolts securely to clamping ring
- Injection molded PVC body. Ultraviolet stabilized for long life. Solvent welds to PVC or pipe
- Epoxy coated aluminum clamping collar with gravel stop. Grooved for positive drainage on smooth surfaced roofs. Distortion resistant and unbreakable
- Galvanized extension/bearing flange allows for easy installation from the rooftop.
- Flexible expansion coupling. Connects to PVC or cast iron pipe.
- Overflow option available

The **NEW** Fast Pak PVC roof drain kits are ideal for quick, simple drain installations in ponded roof areas and for many other applications where it is desirable to secure the drain to the roof deck construction.

TYPICAL 4" FAST-PAK PVC DRAIN WITH FLEXIBLE EXPANSION COUPLING
